ABOUT ME

Experience in both professional and personal projects, focusing on **emerging technologies** and **modern web development**.
I seek opportunities to **grow** and **learn** in the fields of **programming** and **AI**.

EXPERIENCE

Nfq Advisory, Solutions, Outsourcing
Full Time - 2yrs - Hybrid

Frontend Developer — Solutions
Feb 2023 - Present · 11 mos

• Integral in Solutions' B2B apps: TRAFIS, SZENA, ALQUID, NETZERO.

• Skilled in Vuetify for **internal component libraries.**

• Expertise in **front-end tech** : Vue.js, Vuex, React.js, JavaScript, etc.

• Proficient in **Vue.js** and **React.js** for app development.

• Lead frontend logic and functionality, ensuring **deep application knowledge.**

• Collaborative in design for **efficient, reusable components.**

• Employ **separation of responsibilities** and **mixins** for **clear functionality.**

• Committed to **clean** , **modular** code for **easy maintenance.**

• Vue developer with a focus on advanced front-end skills and efficient component development.

TECHNOLOGIES

Firebase · Cloud Firestore · Vue Router · Mixins · Vue.js · Vuex · Node.js · Vuetify · React.js · JavaScript · Git · GitLab · HTML5 · CSS3 · SASS

Full Stack Developer — Graphenus

Jan 2022 - Feb 2023 · 1yrs 1 mos

• Leveraged Angular for FrontEnd development, including **services** , **routing** , and **Angular Material.**

• Managed **Backend** tasks including **routing** , **controller maintenance** , and **database/API integration.**

• Ensured project **deployment** across **environments** and **version control** using Docker and Git/GitLab.

• Documented project processes and conventions for clarity and consistency.

• Facilitated user interaction on FrontEnd with clear information display and interactive input options.

TECHNOLOGIES

PostgreSQL · TypeScript · Angular · MongoDB · REST API · JWT · HTML5 · JavaScript · CSS3 · Git · GitHub · ECMAScript · npm · Node.js · Express.js
